Soaring to new levels of indoor climate

Focus on Excellence

A Breath of Fresh Air

“Air is a vital component of our everyday lives. However, as it can be neither seen nor touched, it all too often becomes overlooked”

With over 200 years experience the Fläkt Woods Group offer Creative solutions for your air requirements.

Fläkt Woods (Ireland) is a leader in the Building Services Industry in Ireland since 1958, providing a range of extensive solutions in Indoor Climate, Refrigeration, Building Management Systems, Discreet Control Systems, Service and Maintenance. These unparalleled resources combined with world-class engineering skills enable us to offer a nation-wide service and total solutions from a single source that sets the pace in the industry.

Local Knowledge with Global Strength

As part of the International Fläkt Woods Group, we have the scale and worldwide expertise to ensure flexible working solutions to meet any customer requirement.

With the highest standards of technical knowledge and customer support, the Fläkt Woods Group has the capability to provide its customers with application specific solutions and unrivalled levels of service worldwide.

The Group has operations in over 30 countries and a distributor network in all other major markets.

Fläkt Woods (Ireland) is a key part of this global support network, and with a large customer base nationwide, we offer Creative Solutions for many different Industry Sectors and Applications. Among the industries we are present in are:

- Airports
- Hotels and Leisure
- Banks and Finance
- Process Industry
- Commercial and Retail
- Public Service
- Food and Pharmaceutical
- Telecommunications
- Health and Education
- Utilities
- Warehousing and Manufacturing

Quality Assurance

Our accreditation to the Quality Standard ISO 9001:2000, shows our dedication to providing quality products and services to the highest International Standards.

A Better way to Work

Creative Solutions

With access to a wide skills base, Fläkt Woods (Ireland) can offer Creative Solutions suited to the ever-changing needs of the clients we serve. Our team of specialists have a sound understanding of the needs of our customers, enabling us to successfully partner projects from concept to client hand-over.

Climate Systems

Fläkt Woods are soaring to new levels of Indoor Climate.

As specialist HVAC contractors, with ownership of the most technically advanced research facilities available, we offer a complete range of air-treatment systems and in-house building services capabilities. Any HVAC product or design can be demonstrated and proved in our laboratories prior to build.

A Focus on engineering excellence and quality, coupled with value added solutions, enable Fläkt Woods (Ireland) to be market leaders in the following:

- Air Conditioning and Ventilation
- Climate Control and Pressurisation
- Design build
- Testing and Certification
- Mechanical and Electrical Services
- Service and Maintenance
- Commissioning and Validation

Creative Products

Both the Fläkt and Woods brands have a long tradition of excellent product performance backed up with advanced design and manufacturing expertise. We offer an extensive range of reliable high quality products, which offer unique value to our customers.

Our Air Handling and Ventilation Portfolio incorporates the following products:

- Air Handling Units
- Air Terminal Devices
- Comfort and Industrial Fans
- Fan Coils, Ducts and Heat Exchangers
- Dirivent Ventilation, Air Conditioning and Car Park Ventilation
- Air and Water Cooled Chillers

Setting the Standard for Service

Control Systems

To compliment our wide range of Indoor Climate Systems, we have an extensive Controls Division, to suit all of our customer controls requirements. Our portfolio incorporates a broad range of Siemens Controls to suit many Residential, Industrial and Commercial Applications.

We are also a Cylon Building Management System “centre of Excellence” installer, and specialise in the control and energy management of HVAC and process applications to validatable standards with the highest reliability and lowest operational costs.

Service and Maintenance

Fläkt Woods (Ireland) mobile building service and maintenance technicians operate from our Dublin and Cork bases, to provide immediate cost effective customer focused solutions for our customers.

Our range of services includes the servicing and maintenance of the following plant equipment and associated system.

- HVAC product and Systems
- Pressurisation Regimes
- Control Systems (BMS & Discreet Controls)
- Energy Monitoring
- Validation
- Airflow Testing
- LPHW, steam and chilled water systems

Among the services we provide are the following:

- Service Contracts
- Spare Parts / Back up service
- 24-hour callout system
- General HVAC and Commissioning
- Project works

This in house capability ensures the flexibility, scale and experience to tailor our services to the integrated building and technical services relevant to the individual needs of our end clients.
