

## we bring air to life

In today's hospital environment, constant clean air is an essential requirement to maintain patient and staff health. As the world's largest manufacturer of air management products, Fläkt Woods has been able to bring unrivalled R&D experience to developing specific "clean air" solutions for hospital environments.

Our innovative ELEA air filter system offers the complete "Clean Air" solution for the health care sector and has been specially developed for applications in hospitals, ward rooms and waiting rooms.

ELEA is a unique, reliable and proven system that will ensure your hospital's air stays clean and healthy.

Fläkt Woods have supplied over 40 million air management products to buildings throughout the world which provide the safest and finest environments. You too can rely on Fläkt Woods to bring your air to life.

For full details of our ELEA range and other Fläkt Woods products please contact us.
